

Haberfield's little vampires get into the spirit of Halloween fetes

By Eleanor Year 2

Haberfield Public School has been getting into the Halloween spirit of 2015. It has been celebrated by heaps of carnival attractions and different kinds of foods. And it was all fun, fun, fun until 8:30 pm on Friday the 30th of October.

Loads of food stalls filled Haberfield's fete areas. There was a large variety of delicious foods on offer from snow cones to curries and even skeletal gingerbread. As soon as the stalls opened there were enormous queues, stretching across the playground, for crunchy sausage rolls covered in sauce and onions.

At the fete there were magnificent, mind dazzling moments when people had fun on the rides. The kids were running around the back paddock looking for the perfect rides to go on and have a great time.

There were plenty of great rides at the Halloween Fete, but what were they? The back paddock of Haberfield Public School had a large collection of rides that scaled from big to small, short to tall and even more. They had rides like the Hurricane, the Tea Cup ride, two Jumping Castles, a giant slide, a merry go round of swings and more! It was like a theme park!

On the playground of Haberfield Public school the amount of Halloween fashion was high. The costumes of HPS's students were all different in a very good way. The terrifying teachers were also very scary in their Halloween costumes. All the costumes were petrifying! A kid at the Fete has given us his opinion of the costumes at the fete. He stated "I though some of the costumes were amazing and some were not as good but I thought they all suited the occasion."
